A passionate and dedicated frontend developer with a strong commitment to creating engaging and user-friendly web experiences. Eager to apply my flexible approach to problem-solving in dynamic environments, while continuously enhancing my skills in modern web technologies. I am seeking opportunities to contribute to innovative projects where I can leverage my creativity, attention to detail, and adaptability to meet diverse development needs.

---

## EDUCATION

### Bachelor of Business Information System | Helwan University

October 2021 – June 2025

- Grade: Excellent
  - GPA: 3.5
- 

## WORK HISTORY

### Frontend Developer | Spaceout Agency

April 2024 – Present

Spearheading the front-end of client websites, ensuring that user interfaces are intuitive and interactions seamless. Partner with design teams to transform creative concepts into fully functional web pages. Continuously elevate performance, accessibility, and responsiveness through cutting-edge frontend frameworks and best practices. Contribute to code reviews, maintaining a clean and reusable codebase that supports the long-term success of various projects.

### Web Development Intern | Prodigy InfoTech

August 2024 – September 2024

Gained hands-on experience with front-end technologies, including HTML, CSS, and JavaScript, while contributing to live projects.

### Web Design Instructor | Innovation Area

December 2023 – February 2024

Educated aspiring developers at Innovation Area on web design fundamentals, emphasizing key skills like HTML, CSS, and UI/UX principles. Designed and delivered dynamic lessons that empowered students to build a strong foundation in web design, from wireframing to implementation. Provided personalized feedback and guidance, fostering a collaborative and creative learning environment that inspired students
